TEACHING INDIANS TO MAKE INDIAN JEWELRY

-AT \$60,000 EACH

Despite past inequities suffered by the American Indian it is perhaps a little out of line to spend \$60,000 each to teach 40 Zuni Indians how to make the jewelry that they have been making for centuries. This is the essence of a letter sent to Senator Everett Dirksen, Ill., by C. Wilson Harder, president of the National Federation of Independent Business, asking when some action can be expected on Senate Resolution No. 70 introduced by the Senator to launch an investigation of the Office of Economic Opportunity.

In his letter Mr. Harder calls attention to the fact that in a nation-wide vote conducted by the Federation, 82 per cent of the independent business proprietors favor adoption of the resolution calling for the probe.

He also called the Senator's attention to a report by Wayne Scott of the Albuquerque, New Mexico, Journal, that the OEO has allocated \$219,294 to train 40 Zuni Indians how to make the type of jewelry that has been made by the Zunis for untold centuries. This money will be used as a source of instruction for six months duration each for two groups of 20 Indians.

During their training they will receive a total of \$42,600 for subsistence with the balance of more than \$150,000 going to administrative and instructional salaries and general overhead.

Mr. Harder also points out that if it is justifiable to spend \$67,000 per Indian to teach him what he has been doing for generations, it will take over 31 1/2 billions of dollars to reach all the present Indians.

The full text of the letter follows: The Honorable Everett Dirksen, Senate Office Building, Washington, D. C. Dear Senator:

As you know, the independent business proprietors of the nation, voting through the Federation, earlier this year approved by a majority of 82 per cent your Senate Resolution No. 70 to set up an investigation of the Office of Economic Opportunity and the efficacy of the operations of the so-called war on poverty.

Many independent businessmen are concerned that action has not been taken on this matter.

You may perhaps recall that the Hearst paper in the area and the Federation published the fact that OEO made up the fact that the formation of independent stores to compete with private business.

New census information that the OEO is going to spend about \$67,000 per Indian to train 40 Zuni Indians in New Mexico how to make Indian jewelry.

It is worth noting that the Zuni Indians have been making jewelry for centuries and of a quality that has made them famous in the United States and abroad.

SONGO POND

-Mrs. Ralph Kimball, Cor.-

Mr. and Mrs. William Bancroft attended the wedding of Miss Nancy Stevens in Bridgton Saturday. On Sunday they took Miss Judy Lapham to Waterville to begin her second year at Thomas College. They returned home by way of Dryden where they visited relatives.

Mr. and Mrs. Edroy Curtis of Middle Dam were callers Saturday afternoon at Ralph Kimball's. Sunday dinner guests were Mr. and Mrs. Herbert Adams and Mr. and Mrs. David Salway and Rose.

Mr. and Mrs. Robert Lincoln went to Boston Tuesday to meet their daughter, Mrs. John Connelly and three children, Patrick, Maureen, and Tara, of New Jersey, who came to visit a few days.

Miss Ethel Kimball returned Tuesday to New London N. H. to resume her studies at Colby Junior College.

Mrs. Herbert Stone, South Paris, Mrs. Wendell Barker, and Mrs. Maude Kimball of Waterville were visitors Wednesday evening at Ralph Kimball's.

As well as a Marketing expert on the same terms, plus other superlatives too numerous to mention to add up to the total of \$123,632 for salaries to teach 40 Zuni Indians how to do what they have been doing for generations. The balance of approximately \$90,000 is absorbed by it is to be presumed by general overhead.

Now of course, there is some question as to whether the American Indian has received fair consideration. On the other hand, the last census shows 233,531 Indians living in this nation. If it is to be the national aim to spend \$67,000 per Indian to teach him what he has been doing for generations, the total bill will come to something around 31 1/2 billions of dollars.

In this case it might be well to open negotiations to ascertain whether the Indians will assume the "great" national debt of over 300 billions of dollars and take the country back.

An already stated 82 per cent of the nation's independent businessmen support Resolution No. 70. How can action be expected on this matter in order to put a halt to such operations as described above.

Sincerely yours, C. Wilson Harder, President.
